

Hear the truth™

# JBL SOUNDFLY™ AIR PLUG-IN SPEAKER

Introducing the JBL SoundFly™ Air, a powerful speaker that plugs directly into your home's wall outlets and streams audio over your home wireless network via Apple AirPlay – no messy cables or shelf space required.

LEGENDARY SOUND SINCE 1946

Looking for a true wireless audio solution for your home? Meet the JBL SoundFly™ Air Plug-In Speaker. Designed to bring about the best possible wireless audio solution for your home, it plugs directly into your wall outlets – no wires, shelf space or expensive receiver needed. All you need is an Apple AirPlay-enabled audio device, such as an iPhone, iPad or iPod touch, and a home Wi-Fi® connection. And don't be fooled by its size. This small wonder delivers a full spectrum of sound. A free downloadable app gives you additional functionality. With it, you can browse music with cover art, adjust volume, and fully customize the digital signal processing (DSP).

## Completely Wireless Design

- Works with Apple AirPlay-enabled devices
- Free downloadable app
- AnyRoom audio

## Plug In to Great Sound

- Revolutionary plug-in design
- Great JBL® sound from anywhere in your house
- Computer-optimized equalization (COE) and optimized compression technology (OCT)

# KEY FEATURES

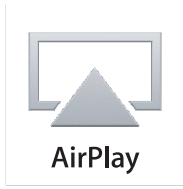

## JBL SOUNDFLY™ AIR PLUG-IN SPEAKER

Hear the truth™

Don't let size fool you. These compact wireless speakers deliver the same powerful JBL® sound you've come to love and expect over the years.

### Works exclusively with Apple AirPlay-enabled devices

AirPlay technology provides high-quality music streaming over your existing Wi-Fi network and gives you remote access to all the audio content on your mobile devices, such as your iPad, iPhone, iPod touch and laptop computer.

### Free downloadable app

Connect with a single touch using the free downloadable app made exclusively for the JBL SoundFly Air. Additional functionality includes the ability to browse music with cover art, adjust volume, and customize the digital signal processing (DSP).

### Revolutionary plug-in design

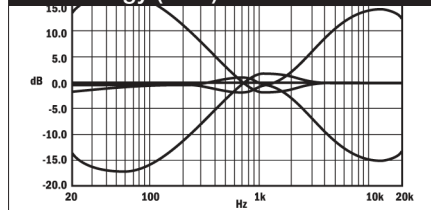

Plug the JBL SoundFly Air speaker into any AC wall outlet – no messy wires or shelf space are needed.

### Great JBL sound anywhere in your house

Get the great JBL sound you've come to love – all you need is a wall outlet. The JBL SoundFly Air speaker features 20 watts of power amplification and up to 20kHz frequency response.

### Computer-optimized equalization (COE) and optimized compression technology (OCT)

COE uses digital signal processing (DSP) to provide a rich musical soundstage while OCT ensures clear, low-distortion sound.

# SPECIFICATIONS

## JBL SOUNDFLY™ AIR PLUG-IN SPEAKER
